EXPERIENCE

Internship
Company: Trade-off
Milan, Italy • 2024-01, 2024-04

- Learned cooperation and teamwork
- Developed skills in product marketing and CRM.
- Helped connect the brand with potential clients.
- Learned the basics of 3D modelling.

Fast Food Worker
Company: Roadhouse S.p.A.
Worked for Billy Tacos restaurant chain
Milan, Italy • 2026-09, 2026-12

- Worked in a very manual and fast-paced environment.
- Developed strong interpersonal skills
- Managed inventory of supplies.
- Learned how to use kitchen machinery.

Social Media & Content Management
Independent Projects
2021, 2025

Worked on different social media platforms throughout my teenage years, learning a lot about content creation and live streaming. I managed to create and manage a Twitch account that I pushed up to the Twitch Affiliation, and later Twitch Partner program.

PROJECTS

Improved Google Sheets Style | JavaScript, Google Apps Script, Google Sheets, GitHub. 2026-08

simple script makes Google Sheets easier to read with a dark theme, clearer table headers, and bigger rows and columns.

- Automated the formatting and resizing of Google Sheets for improved readability.
- Developed a customizable system for detecting and formatting tables based on cell structure.
- Implemented automatic script execution when opening or refreshing a spreadsheet.

Wordle-style guesser game, where the goal is to guess animals.

- Wrote the core of the website with Golang, as it's the language I'm more passionate about.
- Implemented a date-based system that generates a consistent result for a given date.
- Build a complete database for guessable elements

Built a website to display my portfolio, and to improve my reach towards other people and companies.

- Design a unique website structure from scratch, without presets, templates or AI.
- Learned how to find and manage domains with Cloudflare.

SKILLS

Programming: Golang, Java, Python, HTML, CSS, Javascript, XML, SQL

Tools & Software: Git, GitHub, VS Code, IntelliJ Idea, Oracle VirtualBox, Docker, Microsoft Office, Google Apps Script, Google Workspace

Operating Systems: Windows 10-11, Linux (Fedora, GNOME-Wayland)

Languages: Italian (native), Portuguese (fluent), English (fluent), Spanish (Intermediate).

Certificates and Courses:

- 100+ problems solved on LeetCode (top 15% of all users)
- Linux Foundation LSF101 Certificate

SOFT SKILLS

Creativity: I believe I'm a creative person; I'm highly capable of thinking outside the box, I try to think positively and use my problem-solving skills to consistently find ways to come to a solutions.

Communication: Over the years I've managed to improve my team-work capabilities, and I'm highly aware of the people skills required to work on a project with other colleagues.

Adaptability: I'm capable of working in many different environments, and I'm always willing to try different strategies to find what works best for different tasks. I'm a firm believer that adaptability is fundamental to improving work ethic.

Attention to detail: I often notice and think about specifics and technicalities that could change the outcomes of a project or an idea.
